

## FEATURE:

- Adopted import dust cutting filter, with high strength and good effect duct cutting,no pollution.
- Vibration discharge system prevents powder bypass and makes loading smoother.
- Adopted pulse compressed air reverse cleaning device, air shock in filter surface makes good cleaning result.
- During reverse cleaning process, air and material suction inlets will be shut to avoid pollution.
- The system alternates between material loading and reverse cleaning, making loading more efficient and the filter devices more durable.

## SPECIFICATIONS

型号    Model	输送能力 ( kg/h) Conveying Capacity	料斗有效容量 ( L) Hopper Practical Capacity	旋涡泵功率 ( KW) Vortex Pump Power	旋涡电压 ( V) Vortex Pump Voltage	吸气管直径 ( mm) Suction Tube Diameter	吸料管直径 ( mm) Absorb Tube Diameter
XC-XF5HP	400	40	4	380	50	38
XC-XF7.5HP	600	40	5.5	380	50	51
XC-XF10HP	800	60	7.5	380	63	51
